Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 13 residents and 14 staff members test positive for COVID-19. All residents have recovered and are back in their original rooms.

We continue to allow Essential Caregiver visits per the states Essential Caregiver recommendations and the state's guidelines for visitation based on the County COVID-19 Positivity Rate. Currently, the County COVID-19 Positivity Rate exceeds the 10% threshold. Therefore, visitations are restricted to window visits, electronic media visits, Essential Care Giver visits.

Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

WEEKLY UPDATE

February 18, 2021

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 36 residents and 28 staff members test positive for COVID-19. 29 of 36 residents have recovered and are back in their original rooms.

As you know, our state has been experiencing unprecedented winter weather, which has created conditions that resulted in our facility's heating system and emergency generator power to be unable to keep up with demand. This resulted in a steady decline in resident area environmental temperatures. Before conditions became detrimental to the welfare of the residents, we made the decision to transfer all residents to area facilities that had appropriate sustained heat and power. We are assessing conditions at the facility daily to determine when our residents can safely return home. We thank you for your understanding as we work through this new challenge.

We continue to allow Essential Caregiver visits per the states Essential Caregiver recommendations and the state's guidelines for visitation based on the County COVID-19 Positivity Rate. Currently, the County COVID-19 Positivity Rate has been below the 10% threshold for two weeks. Therefore, visitations continue restricted to window visits, electronic media visits, Essential Care Giver visits until the county positivity rate remains consistently below 10% for greater than two weeks.
